PROFESSIONAL EXPERIENCE

(Nov 2025 - Present) Pro Comrades Software Solution

Odoo ERP systems maintanice and developing

- Maintaince the Odoo ERP systems for the companies
- Develop custom modules to serve the companies workflow

EDUCATION

(Oct 2018 - Feb 2025) October Unversity for Modern Science and Arts (MSA)

Bachlor Degree in Computer Systems Engineering

- GPA: 2.23

(Oct 2018 - Feb 2025) University of Greenwich

Bachelor of Science with third class honours in Computer System Engineering.

Graduation Project: Automated Fish farm and Water Quality Management System with grade B.

CERTIFICATES & TRAININGS

(Aug 2025 – Oct 2025): Odoo Fuctional and Techinical Development - Alientics.

- Understand the apps of odoo and how to use them like (CRM, Sales, POS, Inventory, ..etc)
- · Understand the workflow between the apps.
- · Building modules using Python and XML like (School module).
- · Understand the OWL framework (odoo Web Library) and build games using it like clicker games.

(Jan 2025 – Feb 2025): Network security course – Huawei & CLC.

- Network Security Fundamentals :
- Understand core principles such as the CIA triad, types of network threats, for example DDoS, spoofing,
- MITM and basic security models.
- · Firewall and Intrusion Prevention Systems (IPS) :
- Learn how to configure and manage Huawei firewalls and IPS devices, including access control policies,
- NAT, security zones, and Virtual Private Networks (VPNs)

CERTIFICATES & TRAININGS

(Aug 2024 – Dec 2024) Odoo Development Training – Al Moasher Business

- Odoo Modules Customizing : Developed and customized Odoo modules for various business needs. Integrated ERP solutions with third-party applications and automation tools. Conducted debugging, performance optimization, and API

(Jul 2023 – Sep 2023): The Complete Python Bootcamp from Zero to Hero in Python-Udemy.

- · Python Fundamentals: Learn core concepts like variables, data types, operators, loops,conditionals, and function.
- · Object-Oriented Programming(OOP): Understand classes, objects, inheritance, encapsulation, and polymorphism to write organized and scalable code.
- · Working with Modules and Libraries : Gain experience using built-in modules and third-party libraries like random, math, datetime and regular expressions.

PROJECTS:

(Nov 2025 – Present): Murouj Al-Baraka Food Supplies Est

- Point of Sale : 900+ POS transactions with Epson printer integration, customer discount programmes, Arabic receipt support, and customer location verification.
- Accounting : 900 invoices with custom invoice report templates and with custom created refrences numbers to fit the reports send to KFH bank.
- Inventory : 1,200+ stock pickings with batch processing, stock move restrictions, preventing zero stocks , and daily employee deficiency validation to measure employee efficency
- Purchase : Supplier management with delivery batch workflows and create smart module that help to predict accurate quantities to order from the supplier

(Jan 2026 – Present): Al Nasr International Group Company for Food Stuff

- Point of Sale : 66,000+ POS transactions across retail locations with restaurant module, self-ordering kiosks, loyalty programmes, and kitchen display integration
- Manufacturing : 7,360+ production orders for food processing with full cost accounting, create an module that make a reorder rules that detect the min & max for each product and create Manufacture Orders to be sure the product is always available in the stock
- Inventory : make an module that makes the products transfer between the main stocks and shops easier

(Jan 2026 – Present): Althenyan Group

- HR & Payrol: Create a module that responsible to generate more that 38 HR reports to fit the Kuwait law .

(Feb 2026 – Present): Al-Eltzam General Contracting Est.

- CRM: Create a module that responsible to generate more than 25 reports to fit the workflow of the 15 companies.

(Feb 2026 – March 2026): Starco Aluminum

- Upgrade form Odoo 17 to Odoo 19

EXTRACURRICULAR ACTIVITES

(Feb 2024 – Jun 2024) IEEE Head of Organization MSA

- University Student Branch Led and organized branch activites, coordinated teams, and managed event
- planning for student engagement in engineering initiatives.

(Oct 2023 – Jan 2024) IEEE Coordination Member MSA.

- University Student Branch Assisted in organizing technical events,collaborted with other team members,
- and ensured smooth execution of university activites.

(**Oct 2021 – Jan 2022) IEEE Technical Member MSA.**

- MSA university Student Branch Participated in planning and supporting technical workshos and student-led engineering projects.

(Nov 2019 – Apr 2020) Member - TEDx MSA University.

- Supported events logistics and promotion as part of the TEDx MSA team,contributing to public speaking and knowledge-sharing events.

SKILLS

Personel

- Passionate about automation, IoT, and system optimization.
- Actively involved in tech communities and continuous learning
- Programing : Python ,C++ and Front-end developing using React library
- Leadership skills

LANGUAGES

- English (Fluent)
- Arabic (Native)
